

# AlphaCard ID Suite Elite Edition

Easily design, print, and manage ID cards & badges

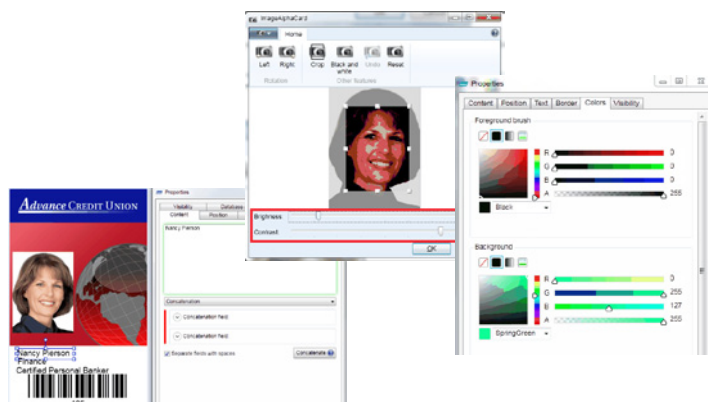

## Powerful ID Card Software

As the premier solution for ID card production and data management, AlphaCard ID Suite combines user-friendly design and automation tools with a sophisticated platform for storing and organizing records for any professional application.

New with AlphaCard ID Suite v11, the software now includes an enhanced card design wizard, improved database functionality & connectivity, high resolution barcodes, and improved language translations.

## Elite Edition Features

AlphaCard ID Suite Elite edition is specially designed for large organizations with multiple users and locations, and includes advanced security features. Elite edition also includes advanced card encoding options.

**SYSTEM REQUIREMENTS:** 32 or 64 bit Microsoft Windows operating system (Windows 7, 8, 10), Explorer 6 or higher, Microsoft .NET framework 4.0 or higher, dual-core processor, 1 GB internal memory (32 bit) or 2 GB internal memory (64 bit), 200 MB free disk space, internet connection.

## Highlights

- Microsoft Access & Excel, MS SQL, MySQL & SQLite, Oracle & ODBC/OLE
- Improved MIFARE encoding options & HID Proximity (read only)
- Searchable records & database filters to find information
- Create custom drop down menus
- Support for digital ID cameras, signature pads & other devices
- File password protection & user authorization
- Portable USB Key (optional)
